

Solid Edge 2025 Installation Instructions

Now that you downloaded the zip file, complete the Solid Edge installation as follows:

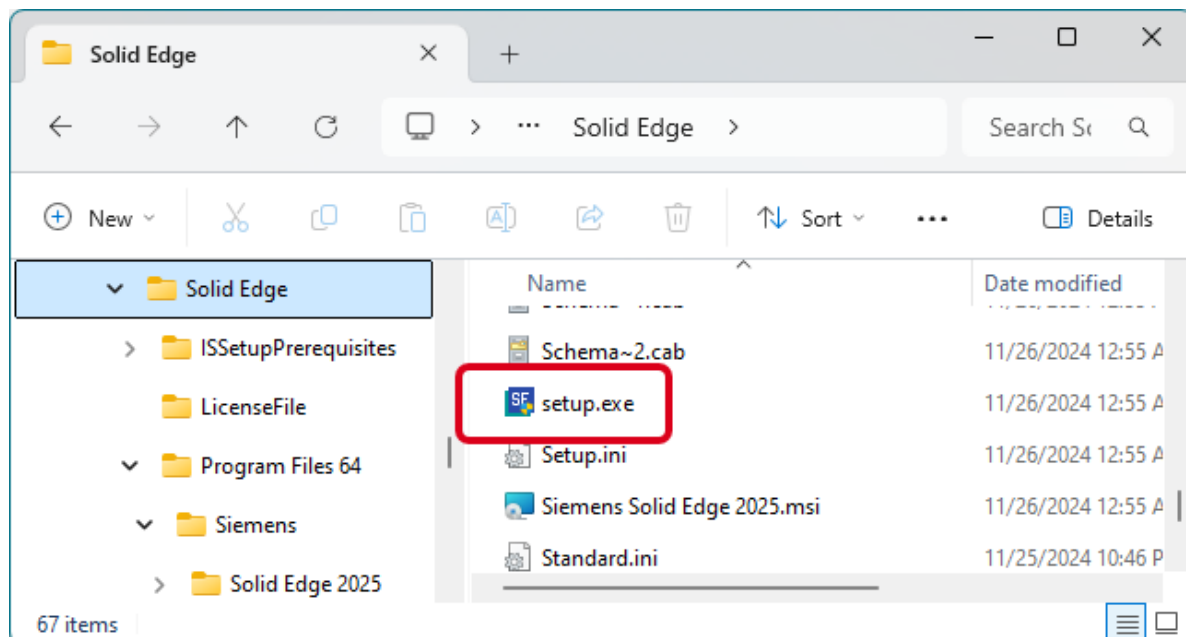

1. Locate the zip file in your Downloads folder.

2. Copy the Solid Edge folder from the zip file to your local hard drive.

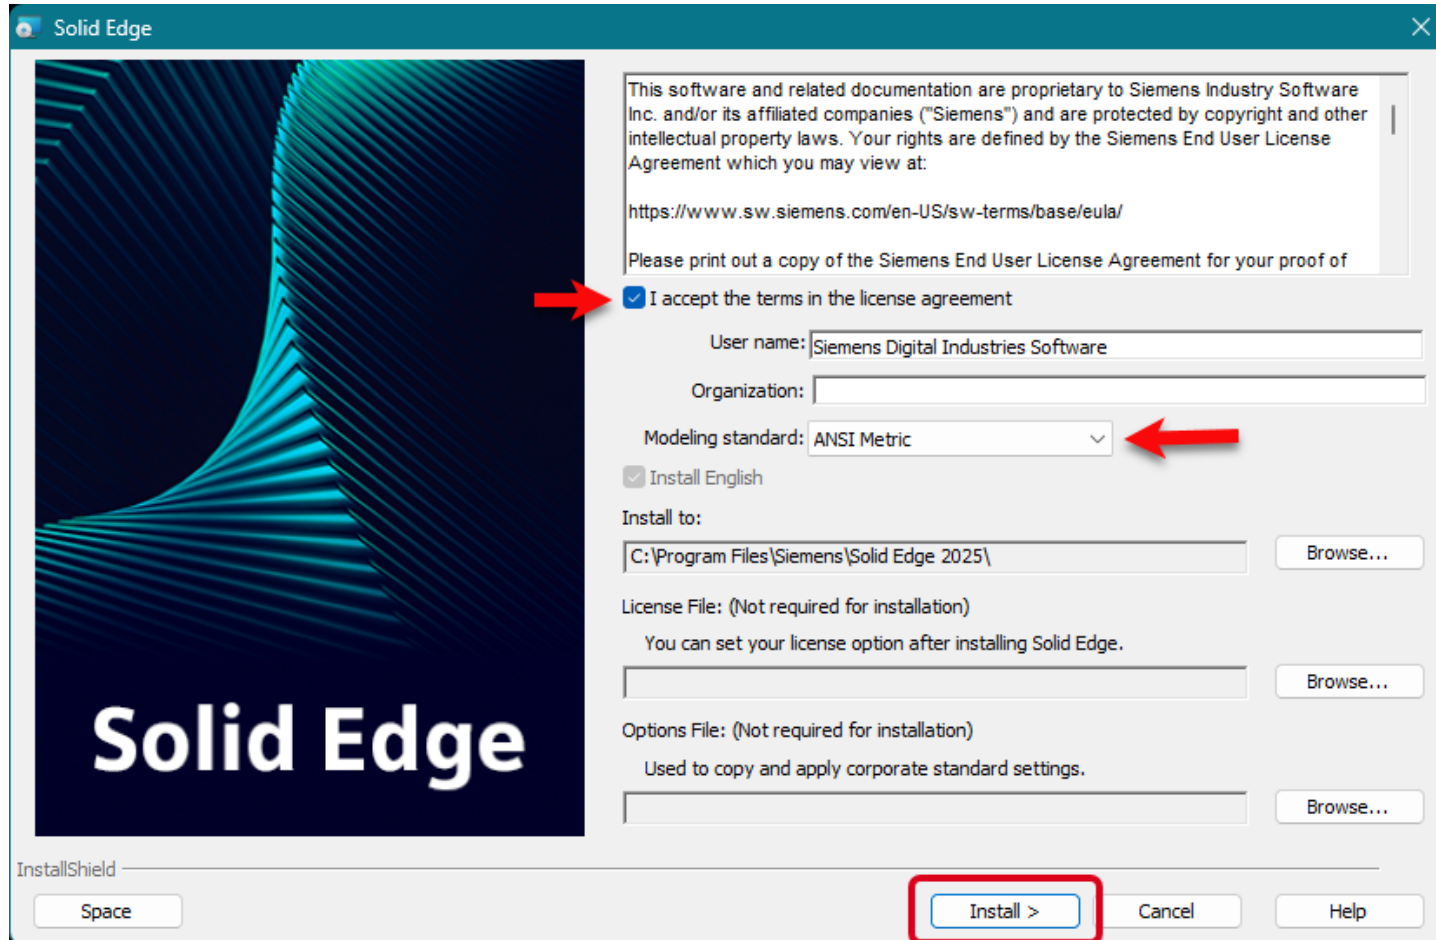

3. In the Solid Edge folder you copied to your local machine, double-click the setup.exe file to start the installation wizard.

Solid Edge 2025 Installation Instructions

- At the licensing page on the installation wizard, accept the License Agreement, select your desired modeling standard, and click Install. The License file will be automatically applied.

- Congratulations! You have successfully installed Solid Edge!
